

1988 Mustang Gauge Pod

1988 Mustang Gauge Pod Wiring

	PIN	Description	POD Wire	Wire Color	Comments
Temperature	1	12 Volt	Q	Q - Red with Yellow Stripe	
	2	Ground	O	O - Black	
	3	Sensor	P	P - Red with White Stripe	
Voltage	4	12 Volt	Q	Q - Red with Yellow Stripe	
	5	Ground	O	O - Black	
Tachometer	6	Ground	O	O - Black	
	7	Sensor	J	J - Green with Yellow Stripe	
	8	12 Volt	Q	Q - Red with Yellow Stripe	
Fuel Level	9	Sensor	U then C also W	C - Yellow with White Stripe	Why two connections ?
	10	Ground	X then E	E - Black	
	11	12 Volt	V then D	D - Red with Yellow Stripe	
Oil Pressure	12	Sensor	B	B - White with Red Stripe	
	13	Ground	X then E	E - Black	
	14	12 Volt	V then D	D - Red with Yellow Stripe	
AntiSlosh Module	15	Sensor	U then C	C - Yellow with White Stripe	
	16	12 Volt	V then D	D - Red with Yellow Stripe	
	17	Sensor	W then 9	Circuit board no wire color	
	18	Ground	X then E	E - Black	
	19	Jumper	Y then A	A - Yellow with Black Stripe	
		Right Turn Light	I	I - White with Blue Stripe	
		Right Turn Light	O	O - Black	
		Left Turn Light	N	N - Green with White Stripe	
		Left Turn Light	O	O - Black	
		High Beam Light	H	H - Green with Black Stripe	
		High Beam Light	O	O - Black	
		Check Engine Light	M	M - Black with Blue Stripe	
		Check Engine Light	Q	Q - Red with Yellow Stripe	
		Amp/Battery	S	S - Green with Red Stripe	
		Amp/Battery	R	R - Red with Green Stripe	Heavy gauge wire
		Check Oil	K		
		Check Oil	Q	Q - Red with Yellow Stripe
